PROFESSIONAL SUMMARY

With a decade in Mobile and Web Software Testing, specializing in Selenium WebDriver and Appium automation, I excel in addressing technical challenges, reporting bugs, and collaborating with developers. I am adept at team management, ensuring on-time project delivery, and providing mentorship. As a collaborative player, I bring strong analytical and interpersonal skills. Experienced in Agile processes, ISTQB Certified Tester Foundation Level (2018) with a background in micro-services development and testing, consistently meeting high standards set by the International Software Testing Qualifications Board.

EXPERIENCE

Software Developer in Test

Sainsbury's Supermarkets Ltd / United Kingdom, London

2020 - Now

As a Software Developer in Test at Sainsbury's Supermarkets Ltd in the United Kingdom, I played a critical role in ensuring the quality and functionality of the company's projects.

Responsibilities:

- Automated testing framework development and maintenance.
- Conducted regression and integration testing
- Participated in code reviews
- Worked closely with developers to improve software quality
- Created test plans and documentation
- Supported continuous integration and deployment processes
- Performed Performance testing.
- Developed a framework to test the Integration layer.
- Worked on Kafka event streaming platform.
- Micro services testing.
- Managing an off-shore team.
- CI/CD tool integration.

Senior Quality Analyst

Medocity Inc. Gurgaon / India, Gurgaon

2015 - 2019

As a Senior Quality Analyst at Medocity Inc. Gurgaon, I was responsible for ensuring the quality and accuracy of our products and services. I led a team in conducting thorough testing and identifying areas for improvement to enhance user experience and increase efficiency.

- Conducted extensive testing on new software releases

- Implemented quality control processes
- Collaborated with cross-functional teams to identify and resolve issues
- Developed testing framework for Android and iOS mobile applications.
- Performance testing for web applications.
- Managed multiple projects.

Quality Analyst

ClubGecko.com / India, New Delhi

2013 - 2014

As a Quality Analyst at ClubGecko.com, I was responsible for ensuring that all products and services met the company's high standards of quality. This role required me to conduct thorough testing and analysis, provide detailed reports and recommendations, and collaborate with cross-functional teams to implement improvements.

- Conducted comprehensive testing on all products and services.
- Provided detailed reports and recommendations for improvement.
- Collaborated with cross-functional teams to implement changes.
- Maintained high standards of quality throughout company.
- Developed multiple testing framework for web and mobile applications.
- Performance testing for web applications.

Test Engineer

Rapidsoft Technologies India Pvt Ltd / India, Gurgaon

2013 - 2013

As a Test Engineer at Rapidsoft Technologies India Pvt Ltd, I was responsible for ensuring the performance of various software products.

- Performance testing for web applications.
